

## **Energy Efficient Building Policy**

The University of Central Punjab:

- Focus on renewable energy sources, like solar power.
- Use energy efficient appliances
- Focus on insulation
- Focus on selection of accurate ventilation systems
- Buys certified equipment
- Use LED lights
- Consider upgrading to LEED
- Use energy efficient bulbs and Lightning fixtures
- Installs light sensors
- Sun-Proofs building
- Regulate the heating with thermostats
- Rethinks the HVAC Systems
- Make efficiency upgrades
- Use energy-star qualified products
- Plugs leakages in the building
- Calculate and reduces the carbon footprints of the campus
