

Policy on hazardous waste disposal

Proper chemical management is necessary to protect the health and safety of the university and surrounding communities and the environment. According to The Pakistan Environmental Protection Act 1997 (PEPA), Faculty of Pharmacy take following precautions to manage the toxicwaste.

- Students are advice to perform mixing of chemical in a fume hood that may generate toxic or corrosive aerosols.
- For disposal of different wastes, they can check the container label to assure that waste is being added to correct container.
- Acid base neutralization chemicals only are waste through basin in sewage.
- Majority chemicals used during undergraduate level is non-hazardous.
