

Ethical Food Sourcing Policy- UCP

The University of Central Punjab emphasize on purchase of food products from local suppliers and consider the impacts of products on the people and communities who create them, keeping a strict eye on ethical risks, like poor working conditions and child labour also, UCP focuses on the environment of workers which is protected from unhygienic, unacceptable, unsafe, and exploitative working conditions. UCP give priority to creating positive change to responsibility.

The University of Central Punjab focuses on building ethical and sustainable supply chains by:

- Identifying trustworthy suppliers,
- Secure trading-partner relationships,
- Digitizing the supply chain,
- Monitoring the shipment provenance,
- Managing the supplier communities and gathering ethical insights.
