

## **Minimization policies extended to suppliers**

University of Central Punjab whether in manufacturing or non-manufacturing concern must comply with their federal laws pertaining to minimization of waste. In this regards company's several vendors and suppliers must also be taken onboard and play their role by jointly working to reduce environmental footprints. In Pakistan currently, the legal framework includes various laws under Pakistan Environmental Protection Act 1997.

### **Objective:**

1. Collaborate with institute's various vendors and suppliers to work jointly towards sustainability and promoting green environment

### **UCP focuses on**

1. Coordinating with university's various vendors and suppliers and share with them university's policy about waste minimization.
2. Monitoring the compliance of vendors and suppliers with institute's defined code of waste minimization
